

Deterrent Label

This 14 x18 mm (0.55 x 0.70 inch) label is custom printed to look exactly like a clear 8.2 MHz Radio-Frequency (RF) Label that would be compatible with Checkpoint and all other RF EAS detection systems. The speaker symbol and warning message printed on the label further enhance the deterrent factor.

For retailers that do not currently have EAS systems installed in their stores, this label provides an effective and very affordable deterrent. For retailers that are already utilizing EAS systems, this label can be used to deter theft of high-shrink merchandise that's too small for their standard RF Labels.
