

E-Max™

An Alternative to the Sensormatic UltraTag®

The E-Max Tag is our alternative to the Sensormatic Ultra-Tag®. This 58 KHz Acousto-Magnetic (AM) tag is compatible with All Sensormatic, WG Security, and other AM systems. This tag's sleek design and ease of use make it one of the more popular clothing security tags.

The E-Max Tag is equipped with the same 58 KHz resonator found in most Sensormatic brand AM tags. The locking mechanism is a magnetic clutch, and thus it is compatible with all magnetic detachers.

Length – 2 — inches

Width – . Inches

Additions – Attached Lanyard
